INVESTMENT TREATY ARBITRATION: FIVE CONTROVERSIES

**Speaker: MR HUSSEIN HAERI, Partner & Co-Head
of International Arbitration at Withers LLP**

Abstract:

The rapid expansion of the field of investment treaty arbitration has attracted attention and interest, as well as controversy and criticism, from scholars, lawyers, judges and, more recently, even civil society. In this first arbitration seminar this academic year, Mr Haeri will examine and question the following five controversies in investment treaty arbitration: Does investment treaty arbitration undermine sovereignty? Are national courts more suitable than arbitration to resolve investment treaty disputes? Do states mostly lose investment treaty arbitrations? And Are there better alternatives to investment treaty arbitration?
